## **METCA Division Car Update**

**METCA Exclusive SD40-2 Locomotives**

METCA is thrilled to announce our next exclusive products. This time we're expanding our METCA locomotive offerings with not just one but TWO different locomotives.

To see more images and ordering information for our Pennsylvania Railroad and our Susquehanna SD40-2 locomotives, go to the METCA store at:

<http://www.metca.org/store.html>

The locomotives feature all the regular Legacy features, including Bluetooth, as outlined in Lionel's 2018 Volume 2 catalog. Easy to order with only a down payment. Due to Lionel's production schedule, we only have a short ordering window, so get your reservations in now. We're only making the exact number of locomotives pre-ordered.

Exclusive TCA Locomotives from Lionel

September 7, 2018

### A Very Special Offer

The SD40-2 locomotive was the most popular locomotive of its time. The Santa Fe silver and red Warbonnet paint scheme remains one of the most popular paint schemes in all of railroading.

TCA is announcing Exclusive Lionel SD40-2 locomotives in Warbonnet paint scheme in multiple road numbers. The powered units are available in two road numbers, 5054 and 5077. The non-powered unit is available in road number 5119.

TCA's Youth Clubs are proud to join in sponsoring these special engines to commemorate the 65th Anniversary of TCA in 2019.

These three road numbers are prototypical to SD40-2 locomotives that were on the Santa Fe roster. All three units feature prototypically correct roof top details and ALL THREE UNITS FEATURE DIFFERENT DETAILS. We are not just offering the same loco in three different road numbers. Rather, all units will be physically constructed differently from each other to capture the actual placement of the rooftop details as per the prototype.

The two powered units feature all the Legacy System sound and control functions, including Bluetooth, that Lionel is known for. All three locomotives will contain the same features as other Legacy diesel locomotives in the 2018 volume 2 Lionel catalog and require 0-54 curves.

We have made arrangements with Lionel for a special production run, with delivery anticipated in the third quarter of 2019. The choices are:

Santa Fe SD40-2 #5054 powered.	\$ 520.00
Santa Fe SD40-2 #5077 powered.	\$ 520.00
Santa Fe SD40-2 #5119 non-powered.	\$ 290.00
All Three Locomotives. Special combined price.	\$1260.00

The pricing includes shipping within the continental United States. Sorry, overseas orders cannot be accepted.

[See Details, Larger Pictures, Place Your Order Now - Online Store](#)

**Orders must be made online only, starting today, with no orders accepted after October 22, 2018. Payments by credit card entered securely online only.**

### **Special Payment Option**

When checking out of the online shopping cart, you may opt to make full payment now, or to pay a 40% down payment, in which case the remaining 60% will be automatically charged to your credit card on July 16, 2019.

Because this is a special production, refunds will not be allowed, and failure of the balance being successfully processed next July will result in cancellation of the offer with no refund of the down payment. You will receive a courtesy notice before this charge is made, so that if your credit card or expiration date has changed by then, you can contact TCA with the updated information.

---

### **Convention Car Ordering Update**

**The Lionel O Traditional Glowing Mint Car is all sold out!** No orders are being accepted, since the production run was limited. Other Convention Cars still available. Check them out while you're looking at the Santa Fe Member Exclusives. Convention Car ordering ends October 31, 2018.
